WARRIOR/ RAPTOR 350 Clutch Kit Install:

This clutch kit comes with 2 larger I.D. friction plates #9 and 5 full size friction plate #16 for a total of seven. The spring clutch boss #17 QTY=2 must be re-used and fits inside the two larger I.D. friction plates. Remember there are 2 steel plates #11 that are thicker than the rest and are installed in the middle of the pack. Remember when installing a clutch always start with a friction plate and end with a friction plate.
